Time Attendance & Access Control Terminal **BioTime - 12**

BIOTIME 12u provides High Recognition ability for injured and peeled fingers; the identification time is less than 0.8 seconds. Three authentication Methods: Fingerprints, RFID card, Password and any combination without a computer can be connected directly, as U-disk alone can achieve communication. Front case has acrylic and back case has the technique of UV material, while appearance has the sense of reality.
